Thank you for your interest in the Pine Bend Landfill expansion project. We value your comments and will use them to better inform our environmental review and permitting processes.

We invite you to comment on the draft Environmental Assessment Worksheet (EAW) and/or draft air permit for the proposed project. The solid waste permit will go on public notice in early 2024 and is not currently available for public comment. Please provide your comments by entering them online using the specified QR codes or by writing them in below. Please be sure to check the box for what you are commenting on and include your address or email in case we have follow up questions or need more information.

First and last name: John Ruiz

City, state, and zip code: Never Grove Heights, MN 55076

Email address: johnruiz@hotmail.com

Send me email updates about the Pine Bend Landfill expansion project.

EAW comment

Air permit comment

\*if you wish to comment on both, please use separate comment sheets

Please enter your comment below. There is more space on the back of the page.

We need to look @ other options then expanding the landfill. Composting, processing, burning. We need to get more of the recycling ~~to~~ our as the garbage. My experience is that unless we stop landfiling nothing will change.
