

Samuel Engel

Hello and thank you for taking the time to read our comments. Also, thank you for the work you do to protect our state's health. Like many Minnesotans, I grew up enjoying the magnificent natural wonders of our state. In a canoe or hiking to a campsite, I was and still am in love with our woods and waters. Now I am a father, and I bring my boys into the wild places of our state. I know it is not easy to protect these places from pollution, but it is a noble and worthwhile fight. And what a gift it is to give our children clean water and air!

Thanks again,

Sam
