

City of Mankato

After reviewing the [EPA's guidebook](#) for setting up and maintaining an [air monitoring network](#), can your organization easily follow these guidelines?

Yes, this is manageable with partners

What barriers do you see in undertaking this project?

Data collection and documentation

Site logistics

In addition to covering the cost of the sensors and their maintenance, how would you use the grant funding?

Secure location, including power and Wi-Fi

Data collection and sharing

What other information should the MPCA consider during the community air monitoring grant process?

If the plan is to inform future policy and guide decisions regarding zoning, permitting, and policy, why would the project only measure EJ areas in the Twin Cities? I am concerned that the metro data will become applied statewide, which these sensors won't inform.
