Description of SWMP

The current Crow Wing County SWMP expired on November 14, 2023. Crow Wing County submitted a SWMP to the MPCA that proposes an integrated solid waste management system through the year 2033. The SWMP states that over the 10-year planning period, Crow Wing County will continue to accept all in-County waste at the Crow Wing County Landfill and will slightly increase landfilling from 47,170 tons to 48,180 tons. Recycling will also increase from 37% to 41% by 2033. This will be accomplished in several ways, including the opening of the new Crow Wing County Recycling Center (CWCRC), a streamlined, one-stop-shop for residents to conveniently dispose of household hazardous waste (HHW), problem materials, and recycling; increasing education, advertising, and public outreach, specifically in regards to the Habitat for Humanity Deconstruction program; better tracking of food to people data; and outreach efforts to local businesses to better track commercial recycling.

Procedure for submitting comments

During the public comment period a person may submit comments to the MPCA on the SWMP.

Comments may be submitted:

Submitted comments must state:

- (1) Your interest in the SWMP.
- (2) The action you wish the MPCA to take, including specific references to the section of the SWMP you believe should be changed.
- (3) The reasons supporting your position, stated with sufficient specificity as to allow the MPCA to investigate the merits of the position.

Public informational meeting

A person may request the MPCA to hold a public informational meeting on the SWMP. A person requesting a public informational meeting must submit the following information as part of the request:

- (1) A statement of why a public informational meeting is necessary;
- (2) The issues the MPCA should address at the public informational meeting; and
- (3) A proposed time and place for the public informational meeting.

SWMP Final Decision

In making a final decision on the SWMP, the commissioner will consider all information submitted by the county, all information received from the public during the public comment period, and all information submitted during a public informational meeting if one is held. The commissioner must also determine whether the SWMP meets the requirements of Minn. R. parts 9215.0540 to 9215.0790. The commissioner's approval will remain in effect for ten years unless the commissioner determines that a shorter period of time is required to ensure that the county implements the plan.
