Description of Great Lakes Gas Transmission Station 1

Great Lakes Gas Transmission Station 1 is a compressor serving a natural gas facility. The facility provides motive force for natural gas flowing through the pipeline. The facility operates four natural gas-fired reciprocating engines, one natural gas-fired turbine/compressor unit, one natural gas-fired electrical generator, and three boilers. The pipeline operates continuously. The main pollutants of concern are products of combustion such as NOx and CO.

The preliminary determination to reissue this Air permit is tentative.

The permit action is for operation of the facility. The permit action is the reissuance of the Part 70 operating permit; therefore, the draft permit has been placed on public notice.

A summary of the Potential to Emit (PTE) in tons per year is as follows:

Pollutant	PM	PM ₁₀	PM _{2.5}	SO ₂	NO _x	VOCs	CO	CO _{2e}	HAP
Total Facility PTE (tpy)	51.5	51.1	51.5	1.74	3031	139	471	165,889	81.3
Total Facility Actual Emissions (tpy)	0.111	0.111	0.111	0.010	3.55	0.139	1.38	*	*

*Not reported in Minnesota emission inventory

PM = Particulate Matter

PM_{2.5} = PM, 2.5 microns and smaller

NO_x = Nitrogen Oxides

Public informational meeting

A public informational meeting is an informal meeting during which interested persons can ask questions concerning the proposed facility. MPCA staff will be present to provide information. If an interested person would like the MPCA to hold a public informational meeting, the person should include all information identified above and in addition include a statement of the reasons the person desires the MPCA to hold a public informational meeting and the issues that the person would like the agency to address at the public informational meeting.

Contested Case Hearing

A contested case hearing is a formal proceeding before an administrative law judge empowered to advise the MPCA regarding issues of fact. As described in Minn. R. 7000.1800, persons who submit petitions for a contested case hearing must also state the issues they propose to address in a contested case hearing, the specific relief requested or resolution of the matter, and the reasons (which may be in the form of proposed findings) supporting an MPCA decision to hold a contested case hearing. Failure to comply with these rules exactly may result in a denial of the request. To the extent known, the petitioner may also submit a list of prospective witnesses to be called at a hearing, a proposed list of publications, references, or studies to be introduced at a hearing and the approximate time required for the petitioner to present the matter at a hearing. The decision whether to hold a contested case hearing will be made under Minn. R. 7000.1900.
