Steve Sternberg

I like the link to the 'Whats in my neighborhood' site for detailed information. I found it very easy to find and open the relevant information.

I would like to see better tools for finding a facility. When I open the page there is a list of 500+ sites. If I know the permit number, it would be easy to find, but most people would have no idea what the number is or how to find it. The filter by permit type is ok, but someone might not know about all the types or what category their concern is listed by.

What I would like is a filter by county, so I can quickly notice what is going on around me.
