

Andrew Hennig

To whom it may concern,

I am writing to support the granting of the permit for the Liberty Classical Academy school expansion on the site in Hugo. Our children have attended Liberty for the past 3 years, and this space will be the permanent home for Liberty as it expands into this campus for future growth. We have been well-informed on the development plans and believe them to be an appropriate use of the land deeded to Liberty several years ago. The granting of the permit will allow this longed-for expansion to begin. I also believe that the impact from this campus will have less of an impact than if the land were to be developed into housing by a developer, which would surely happen in the next few years if it were available to them due to its desirable location. Opposition to this permit by a few neighbors has been based on misinformation (including the falsehood that this septic system would be an open lagoon) which is intent on keeping the land undeveloped for any purpose. Liberty has sought to be a good partner and will continue to be an excellent neighbor to them.

Thank you for your consideration,

Andy Hennig
