

# Ben Wolfe

Everything from the company seems like they truly can care less about the standards...and as the MPCA has already stated, the companies are making a boatload of money and should follow the rules.

As you well know, the Cree proverb goes: "Only after the last tree has been cut down, the last river poisoned, and the last fish caught, will we realize that man cannot live on money".

Do not allow companies, no matter how many jobs they say they are providing, to ruin the waters and the wild rice....Remember the Titanic sank on its maiden voyage....we can't afford to see wild rice disappear from the MN waters! Ben Wolfe
