

Livonia Township (Livonia Township)

Livonia Township appreciates the opportunity to provide comments during the Scoping EAW and Draft Scoping comment period for the Elk River Landfill North Development Area. As the township of the proposed expansion, we offer our support for the proposed expansion.

Over the years, Livonia Township has built a constructive, transparent, and respectful working relationship with Waste Management. WM has consistently demonstrated a willingness to communicate openly with township leadership, respond to questions and concerns, and proactively address issues as they arise. This ongoing collaboration has given us confidence in their commitment to responsible operations and in their intentional approach to long-term land stewardship.

As we look toward the future, we trust Waste Management will continue to uphold the standards we have seen from them in the past—prioritizing safety, environmental responsibility, and community engagement. The proposed expansion represents not only continued partnership but also an opportunity to ensure that waste is managed in a controlled, regulated, and environmentally conscious manner for the region.

For these reasons, the Livonia Township Supervisors express their support for advancing the Elk River Landfill North Development Area project and appreciate the continued collaboration with Waste Management as this process moves forward.
