

James Johnson

I'm a St. Paul resident. I live several blocks from the Mississippi River, near the Lake Street Bridge. I frequently use the river banks, bluffs, bottom land, and bluff-top boulevards, bike/pedestrian paths, and green space for recreation and commuting. I treasure this irreplaceable resource. I strongly urge a FULL CLEANUP of the Ford plant's Area C. Only a full cleanup will undo the damage wrought by decades of industrial misuse and allow the site once again to be a safe, wholesome part of St. Paul's priceless naturalscape, for the enjoyment of all, including humans, pets, and wildlife.
