Minnesota Pollution Control Agency
c/o Charles Peterson
520 Lafayette Road North
St. Paul, MN 55155

Dear Charles Peterson

My name is Mitch Coulter. I have worked in Minnesota agriculture my entire life. I grew up in west central Minnesota and I am very familiar with Riverview Dairy LLP. They care deeply about animal welfare and take the very best care of their animals. They educate the general public about their dairy operation. In my professional work representing the farming community they have always provided an open door policy providing tours for all sorts of public groups. They treat their employees with the utmost respect and they provide a positive opportunity for rural Minnesota.

I encourage the agency to support the growth of animal agriculture in the state and support the farming community. Rural Minnesota deserves a chance for opportunity! I strongly support the expansion of West River Dairy!

Sincerely,

Mitch Coulter
