

# Maggie Knobloch

My name is Maggie Knobloch, and I am writing to express my support for the proposed West River Dairy Expansion.

I have been connected to Riverview for all of my life. My father as well as several of my family members have been involved in our company for quite some time now. I have been working at Riverview for approximately two years. During that time, I have had the opportunity to work across multiple areas of the company, including dairy operations, livestock, and other segments of the business.

Through this hands-on experience, I have developed a deep appreciation for the culture at Riverview. Our people are committed, supportive, and take pride in their work getting to produce food for Americans. Riverview is also 75% employee-owned, which reflects their strong commitment to investing in its people and creating meaningful opportunities for growth.

From an operational and environmental standpoint, I have personally observed Riverview's practices across many of its sites. Our company maintains high standards in how it treats its cattle. Cleanliness, care for animals, and attention to detail are consistently emphasized.

Riverview also demonstrates a responsible and sustainable approach to manure management. We partner with local growers, creating a cycle where crops are grown, fed to cattle, and nutrients are returned to the land through manure application. This system supports both agricultural productivity and environmental stewardship. Additionally, our company operates in compliance with all applicable regulations and is attentive to its impact on neighbors, roads, and surrounding communities.

Based on my experience, I believe Riverview operates responsibly and with a strong commitment to environmental care and compliance.

For these reasons, I fully and respectfully support the approval of the West River Dairy Expansion. I also believe that the current Environmental Assessment Worksheet process has been thorough and sufficient with all of the research, and that an Environmental Impact Statement is not at all necessary.

Thank you for the opportunity to provide comment.

Sincerely,  
Maggie Knobloch
