

Thiago Carvalho

Disclaimer: I am not employed by Riverview, LLP but I am personally working with them in a separate project.

Having met several decision makers in the company, I know that Riverview puts high priority on the quality of their products and the impacts on its employees and communities. I have high confidence that Riverview is concerned with the societal, environmental, and economic impacts on the Morris community and will do everything in its power to achieve win-win solutions with residents and lawmakers. This expansion project is a great opportunity to provide jobs in a high-quality employer in the area and meet demand for food.
