

# Mason Metzger

I am in full support of the expansion!

I live one mile west of the original Riverview site, and 6 miles from the new expansion. I feel if anyone would have a reason to complain about smell, water drawdown, too much traffic or whatever excuse people might have, it would be me. Riverview has been nothing but great for my family and my small business!

I have watched Riverview grow since I was a kid, I have watched their customer relations get better with time. I have watched them use natural resources in a positive way as to not affect the environment around these sites. I have watched them keep a community, which was slowly shrinking, stabilize it, to now have growth in a small town, where all other rural towns are dying. Not here!

To not let this project go through would be a major blow to this small town, no matter what other people might think. From my experience when people have negative things to say, it is usually because of lack of information.

I feel as though me being this close to Riverview my whole life gives my opinion more weight than someone that lives far away from here, with no actual interaction with Riverview.

Again I am in full support of this project!

Thank you!
