

## Byron Wulf

My name is Byron Wulf, and I live and farm in Stevens County. I have been working with Riverview Dairy for over 20 years, selling corn and silage to them and buying manure in return. It has been a major benefit to my farm, as my products are used locally and my fertility inputs are sourced locally. This has greatly reduced the miles on my truck and the transportation of commercial fertilizers that would otherwise be needed. This is a great win for everyone, our economy, both local and nationally, our roads, and our environment. Plus a greater supply of dairy products! The expansion of West River dairy would create more opportunities for me and others to grow this relationship across additional acres. Riverview has been very good to work with, and I appreciate how they show a respect for their neighbors and our government agencies at all levels. As a neighbor, I am in favor of the West River expansion, and it is my hope that the MPCA can see the benefits as well.
