Re: Public Comment – West River Dairy Expansion (Riverview LLP)

My name is David Huang, and I am President of SeaTac Packaging, a manufacturer supporting agricultural and food production operations across North America. I am writing in support of Riverview LLP's proposed West River Dairy expansion in Stevens County.

Through our work in the agricultural sector, we rely on strong, well-managed dairy operations to support a stable and efficient supply chain. Companies like Riverview contribute meaningful economic activity, supporting jobs, investment, and a wide network of suppliers and service providers.

The proposed expansion represents continued investment in agricultural infrastructure that benefits both local communities and the broader food production system. Projects like this help sustain rural economies by creating demand for goods and services and supporting long-term employment.

Based on our experience working with Riverview, they are a professional, disciplined operator with a focus on consistency, planning, and continuous improvement. These characteristics are important in managing large-scale agricultural operations responsibly.

We appreciate the rigor of the state's environmental review process and the opportunity to provide input as part of this process. Thank you for your consideration.

Sincerely,

David Huang

President
