

Jon Moser

I am Jon Moser, we live and farm 3 miles East of West River Dairy. We are not financially involved with Riverview. We do support the 11,000 cow expansion of West River Dairy.

Riverview has been a leader in dairy production in many areas.

In my 40 plus years of farming in Stevens County, I have never had issues working with them. They have proven to me to be very credible in their dealings. We use them for another marketing option for crops, and in return, we are able to purchase manure to be used as fertilizer for our growing crops. It is a win-win situation for sustainable agriculture.

As a close neighboring farm family, I do support expanding West River Dairy. This gives an even greater opportunity for us. I do not support an Environmental Impact Study for the expansion, and Riverview has shown to be an incredibly responsible producer and neighbor, and has the track record to prove it.

Respectfully submitted-

Jon Moser
