

Joel Hoffmann

No, there will be no small farms left if Riverview keeps expanding . Greed is destroying AG and ruining opportunities for young people to milk cows or join agriculture. Not to mention Riverview draining wells of water .There is no reason for anyone to milk 100,000 cows and more . And have all the workers be visa workers it's really sad what they are doing to Dairy and destroying small communities economy's . Bring back small farms and stop with corporate farms and greed. Pretty soon it will just be Riverview being the only dairy farm in MN
