

## Ann Johnson

Please require the massive Riverview Dairy project to get an Environmental Impact Statement. I am elderly and will live near this massive project. Riverview would pump up to 226 million gallons/year from an off-site well - they will take our water! And they will generate huge amounts of waste, with unknown groundwater impacts. Advancing permits without a full understanding of groundwater and water-quality risks is irresponsible. It is critical that the MPCA require a full Environmental Impact Statement. This will affect my health and my drinking water!
