

Randy Thymian

McGinnis Appliance has been involved in the majority of Riverview's projects from the very beginning. With each project, Riverview has consistently chosen the path of quality and continuous improvement rather than taking the easy way out. Their commitment to asking, "how can we be better?" sets the tone for every collaboration. Working with a partner who values doing things the right way without short cuts-makes our work smoother and more efficient. Riverview's dedication to excellence keeps projects on track and reflects the integrity they bring to our community. Riverview plays a vital role in supporting small businesses throughout west-central Minnesota their long-standing presence and community first mindset makes meaningful difference. At McGinnis Appliance, we PROUDLY SUPPORT this project because Riverview continually demonstrates that they are invested in our region's success and are here for the long haul. Thank you!

No EIS is needed.
