

## Cory Ahrens

My name is Cory Ahrens, and I am a custom manure applicator who works with Riverview. I am writing in support of the West River Dairy expansion.

As a young farmer, the opportunity to work with Riverview has allowed me to build and grow my own business in manure pumping and application. Opportunities like this are not easy to come by, and the work Riverview provides has been a key part of helping me get started and stay involved in agriculture.

In my experience working with their sites, Riverview holds themselves and the people they work with to a very high standard. Their sites are well managed, clean, and professionally run. They take their responsibilities seriously and expect the same from their partners and contractors.

Riverview has also been a strong partner for the local agricultural community. Their operations support local farmers, contractors, and businesses, and the expansion of West River Dairy will continue to create opportunities for people like me who are working to build a future in agriculture.

I appreciate the chance to share my perspective and strongly support the approval of Riverview's West River Dairy expansion.

Sincerely,  
Cory Ahrens
