Scott Hennen

I support the expansion of West River Dairy. Through out my years of farming in synnes township I have seen what it was before West River Dairy was there to what it is today as it has evolved. They have brought value added market options to our farming region to which we would not have otherwise. As a neighbor to Riverview I have worked with them through all the tasks associated with the dairy from selling silage, working on the silage harvest crews, and receiving fertilizer from the dairy. In my pesonal experiences with Riverview, safety is of their top priority whether it be personal or environmental. As a neighbor and a farmer please support Riverview West River Dairy expansion!!
