

Sheyla Ramirez

To whom it may concern.

I want to express my support to the West River Dairy Expansion project; I have known about Riverview for over 8 years. This includes touring their farms in different states.

This opportunity has given me an insight of Riverview, the more I know about who Riverview really is, the more I realized it is something good and not only for the employees or vendors who work directly but also for the communities, townships and counties where Riverview operates.

No matter the circumstances Riverview sites comply with the regulations, laws and even go beyond, sites are clean, organized, with minimal flies, minimal odor even during manure pumping season in the fall.

I have friends, family and people impacted by the opportunities.

Thanks,

Sheyla J Ramirez
