

## Cheryl Rempel

At the very least, I am in favor of requiring an EIS for this project before any further decisions are made on allowing the expansion. I lived in Stevens County for 30 years. It's unfortunate that Riverview does not have the integrity to support in depth studies of the impacts of increasing their already massive operations. I would hope that the company leaders would model caring for their neighbors, smaller dairy operations and the environment. They apparently don't rate those concerns higher than making more money.
