

Paul Carlson

As Superintendent of Hancock Public School, I am pleased to express my support for the West River Dairy Expansion. Our district's success is connected to the strength and stability of the area we serve, and this project represents a meaningful investment in both. The expansion of West River Dairy will bring valuable economic growth to our region, supporting local families and strengthening the tax base that helps sustain high quality educational opportunities for our students. Agriculture has been a cornerstone of our community's identity, and continued investment in this sector ensures that our students can look forward to a future with robust career pathways close to home. Beyond the economic benefits, Riverview has consistently demonstrated a commitment to being a responsible community partner. Their support for youth programs, hands on learning experiences, and agricultural education has enriched our schools and helped students develop real world skills. The expansion will only deepen these opportunities. I look forward to the positive impact this will have on our students, families, and the broader area.
