

Esteban Marino Hernandez Lopez

As a employee, I would like to give my support for the expansion of West River Dairy, it is fundamental for my self and for many of us is we have the opportunity to get a permit for this expansion. I truly believe that these will continue helping to us like employees and also like the community, this means a bigger source of employment and many other opportunities. With the pass of years Riverview has generated a lot experience in all the practices that the site applies day to day. I really believe that Riverview will not going to create a problem that affected to the community, neighbors or his own employees. Also I would like to mentioned at some point not just I'm part of this like Riverview, also we are part of these community.
