

Scott Wirtzfeld

Dear MPCA,

My name is Scott and have just began working with Riverview on a project unrelated to the expansion of the dairy in question. Up to this point this company has been a class act to work with. They do not cut corners and are constantly trying to help better their employees. They offer a huge economic benefit to the communities that they are present in. They preach cleanliness and you can certainly see it at the sites they have. I would like to give my support to Riverview LLP, thank you for your time.
