

Diane Baum

I am a Morris resident who has been in contact with the residents of Willcox, AZ, home to another Riverview project. They are concerned by Riverview's out of control style of land takeover, of draining their water and more. I feel this is a picture into the future of Morris, MN as well. This MUST be stopped, which is why I am asking for an EIS OR, an outright denial of this planned expansion altogether. As one Dakota Sioux woman said, "water is life, all of nature is life. If we don't preserve it for our next generations, who will?"
