

Numidia INC (Rinse Elsinga)

Numidia has a strong and valued commercial relationship with Riverview. We work with Riverview as a trusted, professional partner and greatly value their long-term vision, operational standards, and commitment to responsible agricultural development.

We believe Riverview plays a pivotal role in the increased supply of high quality dairy, intended for both the U.S. domestic market and a range of export markets, strengthening reliable supply chains and supporting growing global demand for high-quality dairy ingredients.

From our perspective, the planned investment represents a positive and forward-looking development for production agriculture. It supports continued innovation, job creation, and economic activity, while enabling long-term partnerships across the value chain. Based on our cooperation to date, we have confidence in Riverview's ability to develop and operate this facility in a responsible manner, and we believe the project will make a meaningful contribution to the future of the dairy sector and the communities it serves.
