Ashdon Hacker

I am writing in support of the proposed West River Dairy expansion. As a college student, I have had the opportunity to work at Riverview during my summers, and I am incredibly grateful for the experiences and support the company has provided me throughout my college journey.

I grew up living next to the dairy, and throughout that time, I rarely noticed any impact from it in my day-to-day life. Instead, I have seen firsthand how much it contributes to the community and how positive of an influence it has been. Riverview has also been very good to my family, providing opportunities and support that we truly appreciate.

Riverview has given me more than just a summer job—it has allowed me to return home, stay connected to my community, and continue building valuable skills while pursuing my education. The flexibility and opportunities provided have made a meaningful difference in helping me balance work and school.

One of the most impactful parts of my experience has been the relationships I have built. The people I work with are supportive, hardworking, and genuinely care about one another. These connections have made my time at Riverview not only enjoyable but also personally rewarding, and they are a big reason I look forward to returning each summer.

I am thankful for everything Riverview has provided me and strongly support the continued growth of West River Dairy. It is an organization that supports both its employees and the communities it serves.
