

Amy Werk

I support Riverview's proposed West River Dairy Expansion. The EAW is completed and adequate. All environmental concerns have been addressed and reasonable effort has been made to reduce or mitigate risks. Riverview is a very important member of Stevens County, the Morris community and the state of Minnesota. They are good stewards of the land and the animals. Riverview goes to great lengths to protect the environment and comply with all regulations. Please allow this project to move forward with the EAW. Thank you.
