Minnesota is already losing dozens of dairy farms annually due to inconsistent and often below cost-of-production milk prices. Massive dairy operations, like the one Riverview is proposing to build, have glutted the market and tightened Big Milk's stranglehold on the industry, allowing them to push small and medium-sized family farms out of business and off the land. This operation would only exacerbate the situation and accelerate the loss of dairy farms in our state, decimating Main Street economies in the process.
