

## Nick Hendrickson

I live in Bryant South Dakota and we have a Riverview dairy 1 mile east of town and another one 4 miles west of town. It has been such a blessing having Riverview come to our area. Their sites are always so neat and clean. The employees are always a pleasure to work with. They have had such a positive impact on our little town. Here is a few things that come to mind. (They have staff that joined the local fire department and donate lots of time, they have donated so much to our local parks, they built several new houses in the area, they support the local businesses, they hire local contractors, they are one of the largest property taxpayers in our county, they attend and support all kinds of local events that happen). There is no doubt many more things that they have positively contributed to this area, and for what it's worth I hope they build many more in Hamlin County.
