

## Clark Koehl

Riverview has had a positive impact in our community in many ways. They offer countless job opportunities, purchase our crops, provide manure for our fields, and bring a positive, safe feel to the community. They go out of their way to build strong relationships within the community, and have always been very respectful. They have a very strict manure application process to ensure that the manure is always contained and does not affect the environment. They are always quick to respond to cleaning up the roads during harvest, and leave the roads better than they found them. This expansion will bring future opportunity that will benefit the generations to come. I am confident that Riverview will continue to be a positive impact to our community and will continue to operate responsibly with this expansion. As a young farmer I fully support the expansion of the West River Dairy.

Thank You,

Clark Koehl
