I fully support the expansion of West River Dairy. As an employee of nearly 19 years, I can assure you that integrity is one of our core values. Without clean water and healthy soils, our dairies cannot thrive. We do everything we can to maintain this. There are several dairies across the country that are much larger than this proposed one and they have proven that it is very possible and highly likely to operate in a responsible manner. Furthermore, the positive economic impact this will have on a small rural community is very important to me, as I have young children about to enter the workforce and I hope that they can find employment close to home. Thank you for taking the time to review this comment.
