

Jody Snow

As a Morris, Minnesota resident for almost 20 years, I would like to voice my opposition to the expansion project proposed. The leadership of the LLC exploits workers, breaks contracts, and are not good stewards of the land they currently possess. They will cut corners to make more of a profit. The amount of resources required for such an expansion will put the entire community at risk, people I worked with and care about.

I encourage you not to approve it!
