

## Justin Steiner

I personally know, and have worked with Riverview, and they operate with a high level of integrity and attention to detail and care a lot about the environment. Their facilities are second to none when it comes to cleanliness. They operate at a very professional level. I fully support the expansion of West River dairy because this group has proven to go above and beyond in many ways and so I have no problem with this expansion.

Thank you for your consideration in this matter!
