

James Murphy

To whom it may concern. I am writing to provide some thoughts about Riverview LLP's proposed expansion in Morris of the West River Dairy.

I cannot speak to a lot of what I am reading in the various Minnesota publications' articles about this expansion. That being said, I can speak to my experiences with Riverview LLP.

I have a professional relationship with this company through my position as Executive Director of Traill County EDC. We have had a relationship with Riverview LLP since June of 2024 when they announced the project. Riverview LLP is currently building Herberg Dairy in our community of Hillsboro North Dakota.

At every point in this continuum, I have found the entire Riverview team to be honest, transparent and thorough. All you do is ask and you will get an answer. Part of that information gathering is going to view one of their existing dairies first hand. They are eager to show you how they do business and comply with the standards required. Go and take a tour, you will be glad you did.

From an economic perspective, it's been our community's experience that Riverview LLP is using local vendors, contractors and labor when practicable. That's exactly what I would expect of anyone building in any market. We are looking forward to a long and valuable partnership with Riverview and are excited for the opportunities that lay ahead.
