

## John Kopp

I have been working alongside Riverview as a vendor for many years. They take care of everything the right way and have a very clean way of doing it. I support this expansion because it is good to see dairy growing in our community's. They also provide back to local farmers in many ways. Until you get the chance to work alongside the employees and see how well it is ran, I think it is best to keep positive attitudes towards expansions in the dairy industry.
