

Kurtis Wulf

My name is Kurt Wulf and I have lived in Stevens County my entire life. As a member of the Morris Area School I have seen the generosity of Riverview first hand. They donate to the school on a regular basis as well as many other community programs such as 4H, FFA and the County fair. When evaluating a project like this dairy, is there any consideration to what Riverview has willingly given back to our community? I support this dairy project getting built and see no reason to require more study or permitting. Thank you for your work on this permit.
