

## Carla Anderson

I encourage the MPCA to complete an Environmental Impact Statement (EIS) for the West River Dairy Expansion. I was born in Morris (Stevens County) and lived there until I was 20. I have visited the area most months of my life to see family and friends.

I am concerned how such a large concentration of animals will impact water (groundwater impacts from greatly expanded pumping and surface water impacts from manure), quality of life in the area (e.g., increased truck/heavy equipment traffic, air quality, noise), and pressure on smaller on farms.
