

## Scott Ruiter

My name is Scott Ruiter and I live and farm in Chippewa County Minnesota. I also live two miles from Riverviews Louriston Dairy site. My families experience with them has been nothing but positive.

We raise corn, edible beans, sugar beets and alfalfa on our farm. Riverview has given our farm many increased opportunities in working with them on forages and manure for our crop health. All manure is applied within state guidelines and in a safe manner. Our partnership with Riverview supports the long-term sustainability of our family farm. I support the West River expansion.
