

## Craigan Wulf

As a neighbor of a Riverview location, I can testify the quality in standards and practice used in the daily operations and all year long is top notch. The areas are all kept clean and all runoff is contained. The odor is so minimal its hardly noticeable most days.

As a farmer working along side Riverview, the benefits of us working together are so important. To be able to help eachother as they have needs of crops for feed production and land for manure application. We have countless opportunities for selling crop, adding Alfalfa crop to our rotation, and options for helping in harvest to offset equipment costs.

Personally I would have no concerns with an expansion for Westriver Dairy and I fully support the proposal.

Thank you,  
Craigan Wulf
