

## Paul Wulf

My name is Paul Wulf, I am submitting this in favor of West River expansion. I have been a Stevens County resident for 46 years. I have farmed for the last 20 years. Having Riverview as a neighbor has been a good experience for me. I live and farm in the middle of the 3 sites that they have in Stevens Co. They go out of there way to make sure the neighbors are happy. From watering roads for dust control during harvest to adding some extra gravel when they are done harvesting when it is muddy I feel they go above the call of duty. They even pay for Chloride on the gravel road(for dust Control) past my house every summer because of the increased traffic. They have also provided another option for marketing my crop, and the manure program that they have is a big benefit to my farm for productivity but also soil health. I am also a drainage contractor that works with Riverview. I know that water quality is important to them as we have done many projects with them to help stop erosion and have eliminated many open intakes with French Drains to improve water quality running off of their farms. Livestock is an important part of our rural community and we welcome the West River expansion.

Respectfully

Paul Wulf
