

Wild Rice Electric Cooperative (Mike Wade)

We would like to express our support for Riverview Dairy and its planned expansion in Stevens County. As an electric cooperative, we work with Riverview Dairy by providing electric service to one of their facilities in Norman County, Minnesota, and our experience has been extremely positive. Their management staff are professional, easy to work with, and operate their facility based on the highest of standards. They take the time to provide our cooperative with educational tours of their facilities, and we meet with them regularly to discuss ways we can work together on common interests. Riverview Dairy is a strong community partner and helps support jobs and economic growth in a rural Minnesota. Based on our experience with Riverview, I have full confidence that the expansion of the dairy will have a very positive impact on the area.
