

Brandon Thesing

Good morning, my name is Brandon Thesing, and I serve as a Corporate Account Manager for Select Sires Member Cooperative, working directly with Riverview. As an organization and myself we fully support Riverview Dairy's proposal to develop and permit this new facility. Riverview has built a strong reputation for progressive dairy management, with a clear focus on doing things the right way—taking great care of their animals, growing responsibly, and always looking for ways to improve. Their team puts a lot of emphasis on cow comfort, health, and performance, using good data, strong facilities, and well-trained people who understand that animal care is at the core of everything they do. This project is not just about growth, but about continuing to move the industry forward in a responsible and sustainable way.
