

Steven Wendling

We live within 2 1/2 miles of Riverview's Washington Dairy. I farm around this dairy and have nothing but positive views on Riverview. You will not find a cleaner, better managed dairy anywhere. Their manure management system is very well run. Some have worried about township roads including myself, but now we have some of the best township roads due to Riverview taking care of any roads they use. That includes even completely rebuilding some dirt roads into nice gravel roads. I feel Riverview will be a benefit to any community. They have had lasting beneficial impacts on our community.
