

Michael Anderson

I would like to take this opportunity to provide comments on the proposed West River Dairy Expansion project. My name is Michael Anderson. I am a farmer and business owner from the Hillsboro, ND area. I have had the opportunity to meet and work with Riverview Dairy in several capacities over the last several years.

One of the most striking things that I have experienced working with this group is the amount of transparency and a willingness to answer concerns and questions. Their model of doing business has been much appreciated in my area and with their numerous other projects. They have taken people's concerns and provided time and resources to answer questions effectively and completely. Their concern for people has been evident in everything they do.

The amount of opportunity provided by their projects has been very impactful. They have demonstrated a willingness and commitment to work with local businesses and vendors as much as possible to provide for their needs. I have witnessed many individuals and businesses having new hope and optimism for their area because of the new opportunities to work with Riverview.

Their facilities and operations that I have seen have all been first class. The sites are operated with pride and concern for the area they are located in. Animals are treated humanely and with detail to maintain health, comfort, and productivity. I have enjoyed meeting and visiting with a very wide range of employees and staff.

The positives are numerous and wide ranging. The impact of this project will be a blessing for the rural economy and provide opportunities for many to benefit. Your support and approval of this project will have lasting positive outcomes to so many people and the entire area.

Respectfully Submitted,
Michael Anderson
