

Josie Hollermann

Hi, my name is Josie Hollermann. I am 15 years old and have lived about 1,000 feet from one of Riverview's dairies, and even closer to the covered manure tank. From my experience living this close, the smell of manure has never been so horrible that I couldn't go outside or enjoy the location I live at. I think projects like these help cultivate future opportunities for kids like me. Expanding Riverview will create more job opportunities for the community. For these reasons I support this expansion project.
