

# Amanda Churchill

Hello,

I am writing to express my deep concern about and strong opposition to this proposed dairy expansion. I oppose factory farms (CAFOs), as they jeopardize our natural resources, animal welfare and public health.

Countless dangers would come with this expansion, like polluting air and waterways, rural residents facing health risks in proximity to a factory farm, crowded conditions and spreading of zoonotic diseases, not to mention the greatly increased animal suffering.

This is unsafe for all of us. Please hear the voices of concerned Minnesotans, speaking for ourselves and for animals and the earth.

Thank you.
